Component Mapping to GWT and PP Constructs

Component	GWT Construct	PP Construct	Neural Correlate
Φ (Integration)	Global broadcast coherence	Hierarchical model coherence	Long-range connectivity
B (Binding)	Feature bundling for broadcast	Joint prediction constraint	Gamma synchrony
W (Workspace)	Workspace access competition	Precision-weighted error routing	Prefrontal-parietal
A (Awareness)	Meta-representation in workspace	Higher-order predictive model	DMN + medial PFC
R (Recursion)	Temporal depth of broadcast	Hierarchical time scales	Hippocampal-frontal
